

Environmental Targets 2020 & Performance 2014

Overview of current status

Schindellegi, May 2015

The focus of the Environmental Targets 2020 is to reduce our global footprint

CO2

15%

CO₂ from KN sites* will be reduced by 15% per FTE and per 100m²

Fuel

1%

KN will improve 1% in fuel intensity each year

Electricity

10%

Usage of electricity from low carbon sources will reach 10%

ISO 14001

100%

100% facilities with ISO 14001 certification or certification renewals

Recycling

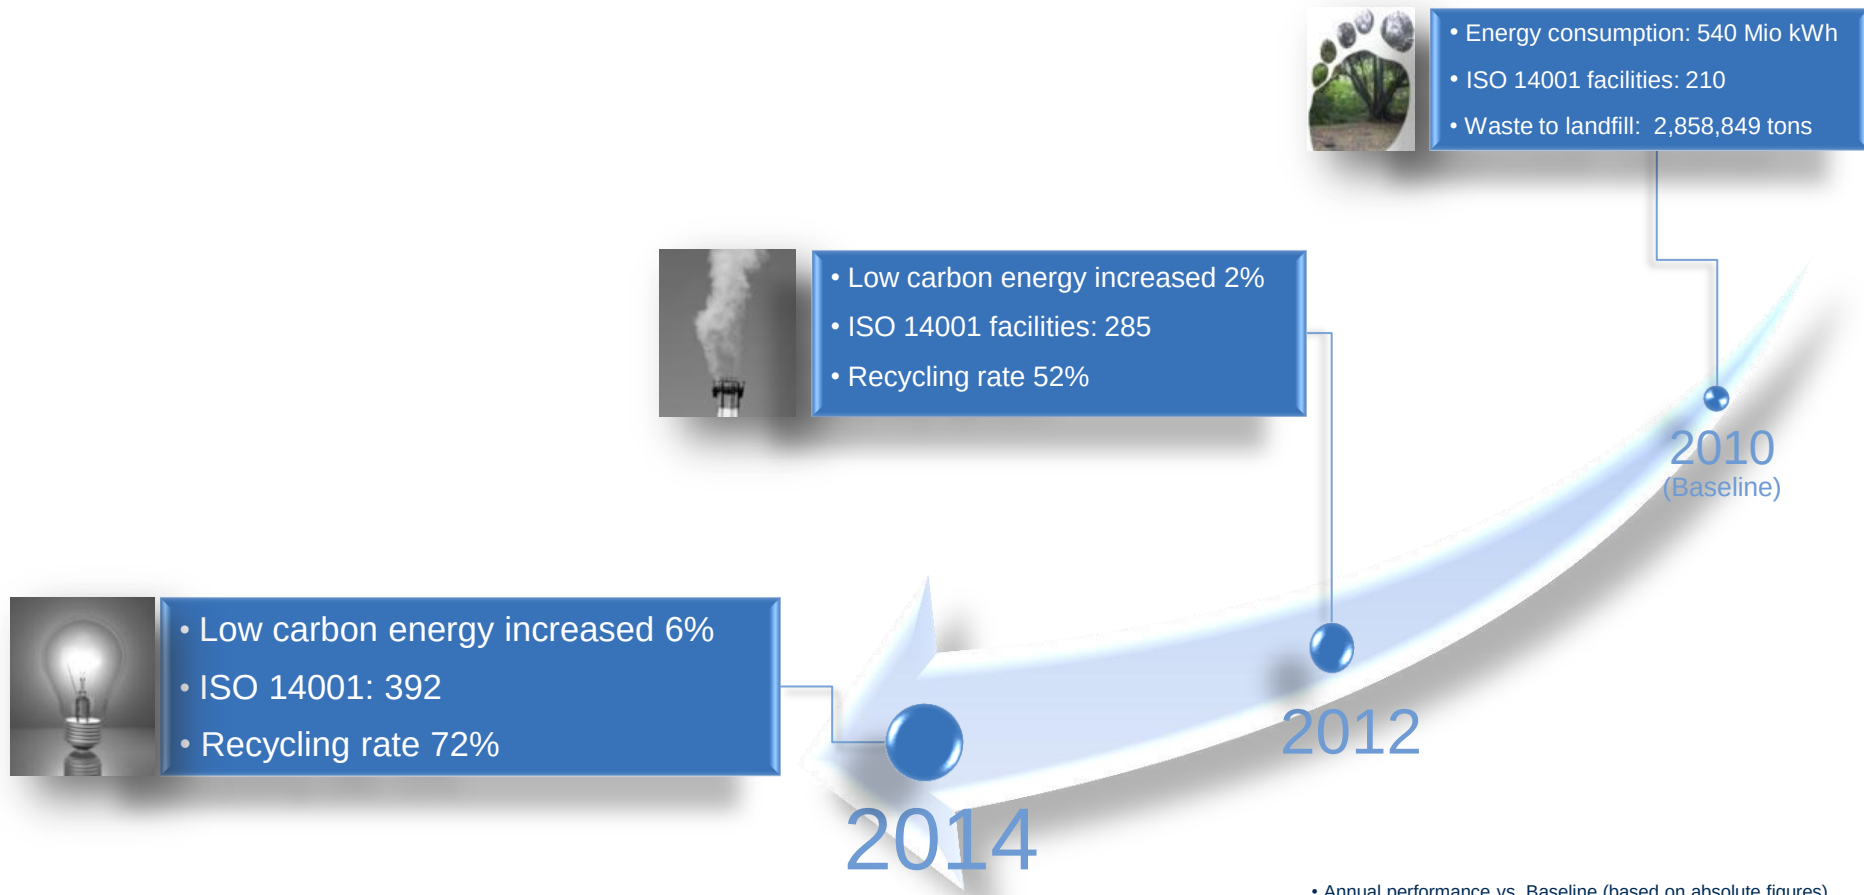

75%

KN will increase recycling to 75% as a percentage of all waste

*Site = defined as a KN location having at least 15 persons employed and/or an area > 800 m²

*Facilities also need Management approval to be ISO 14001

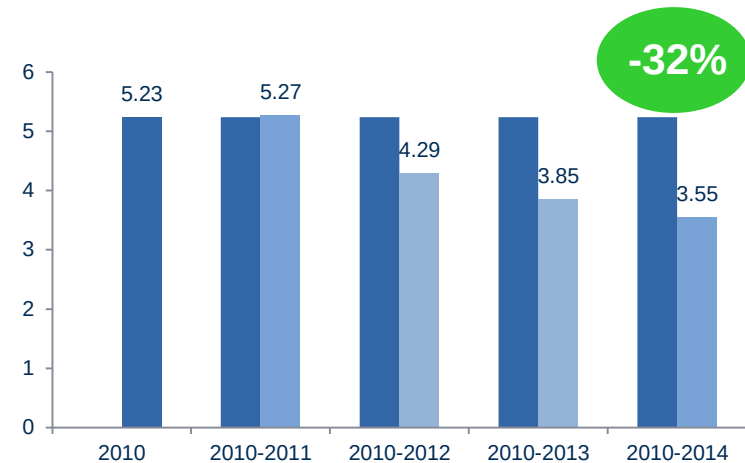

The Environmental Performance continuously improved since the baseline 2010

The Environmental Performance continuously improved since the baseline 2010

CO₂ per FTE has been consistently reduced

CO₂ per 100m has been consistently reduced
